Ohio State Engineer

Title: Alumni Notes

Issue Date: 1941-12

Publisher: Ohio State University, College of Engineering

Citation: Ohio State Engineer, vol. 25, no. 2 (December, 1941), 13, 26-28.

URI: <http://hdl.handle.net/1811/35809>

ALUMNI NOTES

Honors go to Lieutenant Wayne H. Kuhn, of the Ravenna Ordnance Plant, for being the first graduate to accept our offer of an alumni service. Wayne is a graduate in M.E. 1941 and was secretary of the Society of American Military Engineers among other things while here.

Robert C. Berger, E.E. '41, is at the present conducting turbine research tests for General Electric in their plant about 15 miles north of Boston. Typical of Bob's humor is "Things were mighty fine this summer with the ocean and all its sights right at the door step but I fear it has become quite desolate with the coming of winter. Everything is very different, we have lamp lighters who light the street lights, bay windows and I really think the natives think we have Indians in Ohio".

Russell C. Neff, Research Department of General Refractories, is interested in the Directory of recent graduates and is anxious to contact his fellow graduates.

Wilfred "Doc" Merriman, M.E. '41, and President of Quadrangle Jesters of last year, is now occupied with detail drafting in Marion, Ohio.

Norton S. Young, E.E. '41, is now holding the position of sales assistant in the New York office of Westinghouse. He has been fortunate in that he has "sustained neither of the most common experiences this year, marriage and the army".

Among those returning to Ohio State for further study are James McIntosh, Henry Caldwell, John Rex, and Al Pierce.

Joe Gustafferro has a commission as Ensign in Naval Ordnance and is now on active duty in Pearl Harbor, Hawaii.

Lt. John McEwen was called to active duty from the Paper Institute at Appleton, Wis., several months ago. He reported to Fort Belvoir, Va., and has since been transferred to the 132nd Engineer Battalion at Camp Forrest, Tenn. He is motor officer, mess officer, supply officer, and recreation officer for his company—some job, Mac.

Don Postlewaite, last year's editor, and Ceramics grad of '41, is now working in Camden, N. J., with a suspense of waiting for his selective service classification to be changed. He has a class 2A rating now, this explains the situation.

Helmuth Engleman, M.E. '40, and editor of the Engineer of two years ago, is now on the faculty of Case School of Applied Science in Cleveland.

Lieutenant William Feeman is a platoon commander in the 16th Engineer Battalion of the First Armored Division at Fort Knox, Ky.

More notes on the graduates in the next issue.

- ATKIN, RUPERT L. U.S. Army Ordnance Res., General Motors Corp., Detroit.
Present Address: 12534 Woodrow Wilson Ave., Detroit, Michigan.
Home: 404 E. Main St., Madison, Ohio.
- AUGUSTUS, ROBERT E. Saginaw Steering Gear Div., General Motors Corporation, Saginaw, Michigan.
Present Address: 1306 S. Washington Ave., Saginaw, Mich.
Home: 333 Piedmont Road, Columbus, Ohio.
- BACHTEL, WESLEY D. A. C. Spark Plug Div., General Motors Corp., Flint, Michigan.
Present Address: 1449 Belle Ave., Flint, Michigan.
Home: R.F.D. No. 2, Louisville, Ohio.
- BANGERT, CHARLES A., JR. General Electric Company, Schenectady, N. Y.
Present Address: Unknown.
Home: 55 S. Oak St., London, Ohio.
- BEACH, WILLIAM C.
Present Address: Unknown.
Home: 1201 N. Columbus St., Lancaster, Ohio.
- BEIGHLEY, PAUL A., JR. United States Navy.
Present Address: Unknown.
Home: 318 Sexton St., Struthers, Ohio.
- BELT, VERNON C. Allis-Chalmers Co., West Allis, Wisconsin.
Present Address: 1141 So. 76th St., West Allis, Wisconsin.
Home: Station B, R.R. No. 1, Columbus, Ohio.
- BORN, ELLIS H. Denison Engineering Co., Columbus, Ohio.
Present Address: 2453 Seneca Park Place, Columbus, Ohio.
Home: Same as above.
- BREVOORT, FRANK L. duPont deNemours & Co., Belle, West Virginia.
Present Address: 2007 Quarrier St., Charleston, W. Va.
Home: 3620 N. High St., Columbus, Ohio.

POWER FOR DEFENSE

On a ship of the U. S. Navy in 1932, Babcock & Wilcox, the nation's oldest and largest manufacturer of steam boilers, first proved the safety and practicability of welding high-pressure boilers. This advance eliminated the former riveted boiler and led the way to higher pressures and efficiencies everywhere—more power at less cost.

Today, even while B&W is working on an unprecedented volume of defense orders for steam generating equipment, the Company's physical, metallurgical and chemical laboratories are energetically evolving new developments. Thus, because of B&W leadership, a ton of coal, a barrel of oil, a cubic foot of gas, or even a cord of wood, produces still more power for defense and for industry as a whole.

B&W Single-Pass Marine Boiler as used in modern merchant vessels.

FREE 14-PAGE BOOKLET

"The Design of Water-Tube Boiler Units." This liberally illustrated booklet discusses the factors involved in determining the proper type of steam generating unit for any given service. A copy will be sent to you on request.
